

Smart, simple and powerful web filtering and reporting.

- ✓ Intelligent web filtering
- ✓ Realtime reporting
- ✓ Policy-based controls
- ✓ Download & bandwidth management
- ✓ Proxy cache & network optimisation
- ✓ Internet billing built-in
- ✓ Intuitive user interface
- ✓ LDAP support & seamless authentication

"Getbusi allows us to enforce an Internet usage policy, monitor productivity and maximise our network resources."

- Nathan Barry, Systems Admin,
Halley & Mellowes

Simplicity through design

Getbusi is a full-featured filtering and reporting solution that's been engineered from the ground up to be simple. Simple to use, simple to implement and simple to administer – Getbusi just works.

Better, smarter filtering

Version 3.5 sees the introduction of new technology to deliver significantly higher filtering performance. Its URL database uses qualified channels to ensure greater integrity, and to stay current on Internet threats. Persistent learning ensures Getbusi's filtering performance continues to get better and better over time.

Serious innovation, functionality and refinement

We listen to our customers – their feedback has driven some serious innovation in Getbusi's latest release.

- Improved reporting performance
- Smart new interface
- Support for Win 2008 and Win 7 authentication
- Support for Mac OSX 10.5
- Enhanced filtering
- New hardware support

Deployment - a suite of options

Getbusi gives you choice and flexibility - contact our experts to find the option that works for you

Software

install on your own Mac- or PC-based server

Appliance

Plug straight into a dedicated Getbusi device

VMWare

Deploy Getbusi into a virtual environment

Software as a Service (SaaS)

Subscribe to Getbusi's hosted service

The Getbusi family

Fast, powerful and flexible web filtering and reporting via SaaS

Getbusi 3.5 feature highlights

Granular policy-based controls

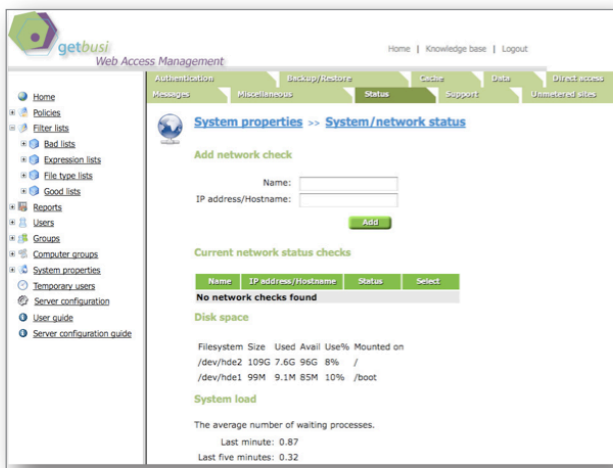

Instantly apply policies to match the unique culture of your organisation

- ✓ Support organisational structure and user groups
- ✓ Quickly and easily implement time-based policies

Realtime reporting

Maintain transparency, measurability and compliance with granular, real-time reporting

- ✓ Generate customised, actionable analytics
- ✓ Use as much or as little detail as you need
- ✓ See exactly how your network's used, in real-time
- ✓ Review attempted policy breaches
- ✓ Explore and manipulate information exactly as you require, with powerful graphing, drill-down and export functionality

Download and bandwidth management

Allocate and deliver bandwidth to exactly where it's needed, when it's needed

- ✓ Set download limits for files, users and user groups
- ✓ Shape, disable or credit accounts with used quotas

Intelligent browser-based interface

Quickly and easily administer Getbusi via a clean, intuitive interface

- ✓ Access securely using any web browser

Network optimisation

Maximise your Internet assets and deliver a higher quality of service with Getbusi's onboard optimisation tools

- ✓ Industry-leading proxy caching system delivers faster, more efficient and cost-effective web access
- ✓ Shape and allocate bandwidth as you require
- ✓ Regulate the flow of bandwidth-heavy files
- ✓ Specify download limits for both users and files

Internet billing

Getbusi delivers onboard user credit capability

- ✓ Secure access to real-time account information
- ✓ Charge users for additional bandwidth if required

Things to make life easier

Getbusi is designed to make performance web filtering and reporting as simple for you as possible

- ✓ Simple administration from anywhere, by anyone
- ✓ Fast, straightforward integration
- ✓ LDAP Active directory support
- ✓ Seamless authentication support

We're Getbusi. And proud of it.

A web filtering specialist. Period.

Getbusi combines software innovation, best-of-breed technology and proven industry insight to deliver powerful, user-centric and affordable web filtering and reporting solutions. Whatever your web filtering needs and challenges - we've got you covered.

Better. Smarter. Simpler.

Getbusi is committed to advancing and simplifying web filtering through continued innovation, integration of emergent technologies and responsiveness to client needs.

We listen to you.

Client feedback is what drives ongoing innovation at Getbusi - not only in our products, but also in the way we serve and collaborate with you. We take time to understand your unique needs to deliver solutions that really work for your organisation.
